

*Okanagan Basin*

*WATER BOARD*

**Workshop:  
Proposed Drought Trigger Guidelines for  
Okanagan Mainstem Lakes and River**

November 16, 2016

# Workshop Objectives

- Review and evaluate proposed drought trigger guidelines
- Identify how local triggers can work within the province's lake level management and drought response

# Format and Content

- Introductions
  - Name, organization, and location of intake
- Presentations
  - Regional drought planning (Phil)
  - Mainstem management objectives (Shaun)
  - Proposed drought trigger guidelines (Brian)
- Ask questions during presentations
- Group discussion

# Next Steps

- Revise drought trigger guidelines report based on feedback today
- Distribute final draft report to workshop attendees for review
- Help water suppliers incorporate the drought triggers into their plans
