LETTER OF TRANSMITTAL	i
FORWARD	iii
SUMMARY OF FINDINGS AND RECOMMENDATIONS	ix
TABLE OF CONTENTS	xix
PART I INTRODUCTION	1
CHAPTER 1 THE OKANAGAN BASIN	3
1.1 Physiography	3
1.2 Drainage	6
1.3 Climate	9
1.4 Soils	14
1.5 Vegetation	14
CHAPTER 2 HISTORICAL DEVELOPMENT	17
PART II EXISTING RESOURCE BASE	21
CHAPTER 3 ECONOMIC BASE	23
3.1 Population	24
3.2 Employment	28
3.3 Land Use	31
3.4 Agricultural Resources	32
3.5 Forestry Resources	36
3.6 Mineral Resources	37
3.7 Tourism	37
3.8 Indian Reserves	39
CHAPTER 4 WATER QUANTITY	41
4.1 Hydrology	41
4.1.1 Mainstem System	41
4.1.2 Okanagan Lake Basin Water Budget	49
4.1.3 Hydrometric, Meteorological and Water Use Data	52
4.2 Present (1971) Water Requirements	52
4.3 Water Supply and Flood Control	53
4.3.1 Okanagan Mainstem Operation	60
4.3.2 Effect of Droughts and Floods on Shoreline Development	69
(a) Okanagan Lake	69
(i) Economic Damage	69
(ii) Non-Economic Impacts	71
(iii) Annual Damage	73
(b) Osoyoos Lake	74
(i) Economic Damage	75
(ii) Non-Economic Impacts	76
(iii) Annual Flood Damage	76
4.3.3 Tributary Discharges	76

PART II:	CHAPTER 4	WATER QUANTITY	- Continued . . .	
	4.3.4	Distribution of Flows Within Okanagan Lake Basin		79
	4.3.5	Method of Estimating Natural Flows in Selected Tributaries		81
	4.3.6	Matching Supply and Demand		83
	4.3.7	Summary		83
	4.4	Forest Hydrology		85
	4.4.1	Pearson Creek		86
	4.4.2	Conclusions		89
	4.5	Groundwater Hydrology		91
	4.5.1	Geology		91
	4.5.2	Tributary Groundwater Sources		92
	4.5.3	Groundwater Inflow to Okanagan Lake		94
	4.5.4	Aquifers in the Surficial Deposits		97
	4.5.5	Well Yields, Quality and Cost		98
		(a) Well Yields		98
		(b) Quality		98
		(c) Cost at Well Head		98
	4.5.6	Summary		99
CHAPTER 5		WATER QUALITY		101
5.1		Water Quality for Consumptive and Other Beneficial Uses		101
5.1.1		Water Quality Criteria		101
5.1.2		Quality of Tributary Streams		102
5.1.3		Quality of Main Valley Lake Water		106
		(a) Drinking Water and Aquatic Life		106
		(b) Recreational Bathing Areas		109
5.1.4		Pesticides and Trace Metals		111
5.1.5		Summary of Stream Water Quality Problems		112
		(i) Vernon Creek		112
		(ii) Coldstream Creek		112
		(iii) Deep Creek		112
		(iv) Westbank Creek		113
		(v) Kelowna Creek		113
		(vi) Brandt's Creek		113
		(vii) Inkaneep Creek		113
5.2		Effect of Land Use on Water Quality		114
5.2.1		Kelowna Creek Results		119
5.2.2		Lambly Creek Results		119
5.2.3		Comparison of Lambly and Kelowna Creeks		120
5.2.4		Summary		120
5.3		Nutrient Loadings to the Main Valley Lakes		120
5.3.1		Tributary Streams		121
5.3.2		Municipal Outfalls		125
5.3.3		Industrial Outfalls		127
5.3.4		Storm Sewers		127
5.3.5		Dustfall and Precipitation		129
5.3.6		Groundwater		130
5.3.7		Summary		132
5.4		Waste Treatment Pilot Projects		134
5.4.1		Review of Present Treatment Practices		135
5.4.2		Review and Evaluation of Advanced Wastewater Treatment Methods		135
5.4.3		Lysimeter Spray Irrigation Study at Penticton, B.C.		137
5.4.4		Monitoring Spray Irrigation of Sewage Treatment Plant Effluent at Vernon, B.C.		140

PART II:	CHAPTER 5	WATER QUALITY	- Continued . . .
	5.4.5	Phosphorus Removal by Chemical Treatment at Kelowna	145
	(i)	Pre-Precipitation	146
	(ii)	Tertiary Treatment	147
	5.4.6	Nutrient Contributions from Septic Tanks	147
	5.4.7	Nutrient Contributions from Refuse Disposal Sites	152
	(a)	Refuse Disposal Site	152
	(b)	Column Leaching Experiment	154
	CHAPTER 6	LIMNOLOGY OF THE MAIN VALLEY LAKES	157
	6.1	Geological Results	158
	6.1.1	Historical Changes in Biological Growth	158
	6.1.2	Limnogeology of the Main Valley Lakes	160
	6.2	Physical Limnology	162
	6.3	Water Chemistry Results	166
	6.4	Biological Studies	167
	6.4.1	Role of Nutrients in Biological Production	169
	6.4.2	Phosphorus Forms and Budgets	170
	6.4.3	Nutrient Bioassay	171
	6.4.4	Phytoplankton	172
	6.4.5	Attached Algae and Rooted Aquatic Vegetation	172
	6.4.6	Bottom Fauna (Bottom Living Invertebrate Animals)	173
	6.4.7	Zooplankton	175
	6.4.8	Fish	176
	6.5	Relationship of Nutrient Loadings to Trophic Levels	177
	6.6	Summary	178
	CHAPTER 7	WATER BASED RECREATION	183
	7.1	Shoreline Landuse and Land Tenure Patterns	183
	7.2	Public Recreation Sites	185
	7.3	Tourist and Resident Shoreline Recreation Participation	188
		188 and Characteristics of Tourists	
	7.4	Boating Survey	193
	7.5	Shoreline Recreation Studies	194
	7.6	Water Quality and Shoreline Recreation	199
	7.7	Wood and Kalamalka Lake Studies	203
	7.8	Crowding and Shoreline Landuse Capability	209
	7.9	The Value of Shoreline Recreation	212
	7.9.1	Tourist Expenditures	213
	7.9.2	Resident Values	214
	7.10	Summary	216
	CHAPTER 8	FISHERIES AND WATER MANAGEMENT	217
	8.1	Present Fishery Resource (1971) and Utilization	218
	8.1.1	Harvest Capacities of Headwater Lakes and Reservoirs	218
	8.1.2	Harvest Capacities of Tributary Streams	224
	8.1.3	Harvest Capacities of the Main Valley Lakes	227
	(a)	General Capacities	227
	(b)	Salmonid Sport Fish Capacities	228
	8.1.4	Harvest Capacity of the Okanagan River	234
	(a)	Sockeye Salmon	234
	(b)	Sport Fishery	234
	8.2	Angler Use and Socio-Economic Aspects of the Sport Fishery	235

PART II: CHAPTER 8 FISHERIES AND WATER MANAGEMENT	- Continued. . .	
8.2.1 Angler Participation		235
8.2.2 Sport Fish Harvest		237
8.2.3 Angler Behaviour and Preferences		238
8.2.4 Value of Sport Fishing		241
(a) Economic Values		241
(b) Non-Economic Values		242
8.3 Summary		243
CHAPTER 9 WILDLIFE AND WATER MANAGEMENT		245
9.1 Okanagan Lake		245
9.2 The Okanagan River		246
9.3 Summary		248
PART III PUBLIC INVOLVEMENT IN PLANNING		249
CHAPTER 10 THE PUBLIC INVOLVEMENT PROGRAM		251
10.1 Emerging Public Interest in Water Management		251
10.2 Public Meetings		254
10.2.1 Shuswap-Thompson Public Meeting		254
10.2.2 Okanagan Basin Water Board Meetings		255
10.3 Resident Survey		257
10.3.1 Perception of Major Problems Facing Okanagan Residents		258
10.3.2 Awareness of Water Resource Problems		258
10.3.3 Attitudes on Future Life-Style		259
10.3.4 Attitudes Towards Public Involvement		260
10.3.5 Preferred Institutions for Water Resource Planning		260
10.4 Discussion of Public Responses		262
10.5 The Public Involvement Program		263
10.5.1 Interest Based Planning Model		265
10.5.2 Public Education (Information Out)		268
10.5.3 Public Response (Information In)		269
10.6 Public Involvement Program and Study Communications		270
10.7 Summary and Discussions		271
CHAPTER 11 LEGAL, ADMINISTRATIVE AND INSTITUTIONAL ARRANGEMENTS		273
11.1 Laws Affecting the Use and Management of Water and Water Related Resources		275
11.1.1 Planning Legislation		275
11.1.2 International Waters		278
11.1.3 Water Quantity		278
(a) Water Act		278
(b) Navigable Water Protection Act		279
(c) Other		279
11.1.4 Water Quality		279
(a) Pollution Control Act, 1967		279
(b) Health Act (British Columbia)		280
(c) Department of National Health and Welfare Act (Canada)		280
11.1.5 Recreation, Fisheries and Wildlife		280
(a) Fisheries Act (Canada)		280
(b) Other		281
11.1.6 Land Development		281
11.1.7 Financial Assistance Statutes		281
11.1.8 Local Government Functions		282

PART III:	CHAPTER 11 LEGAL, ADMINISTRATIVE AND INSTITUTIONAL ARRANGEMENTS	- Continued . . .	
11.2	Administration of Water Resources		282
11.2.1	Water Act (British Columbia)		284
11.2.2	Pollution Control Act, 1967 (British Columbia)		284
11.2.3	Water Resource Planning and Development (British Columbia)		284
11.2.4	Water Resource Planning and Development (Canada)		285
11.2.5	Fisheries Act (Canada)		285
11.3	Discussion of Institutional Arrangements Affecting Water Resource Management in the Okanagan Basin		285
11.3.1	General Problems		285
11.3.2	Specific Problems within the Okanagan Basin		286
	(a) Water Quantity		286
	(b) Water Quality		288
	(c) Recreational, Fisheries, and Wildlife		289
PART IV	EVALUATION OF FUTURE CONDITIONS		291
CHAPTER 12	PHILOSOPHY OF COMPREHENSIVE BASIN PLANNING IN THE OKANAGAN BASIN		293
12.1	The nature of Planning		293
12.1.1	Planning for the Future		294
12.1.2	The Challenge of Choice		294
12.2	Study Goals		295
1.	Economic Development		295
2.	Environmental Quality		295
3.	Social Betterment		296
12.3	Development of Future Projections		296
	Projection I, Projection II, Projection III		298
12.4	Water Resource Planning		298
12.5	Components of the Framework Plans		299
12.6	Review of the Planning Process		302
12.7	Summary of Planning Principles		303
CHAPTER 13	ECONOMIC PROJECTIONS		305
13.1	Economic Growth Projections		306
13.1.1	Projection I - Continuation of Present Economic Policies		308
13.1.2	Projection II - High Economic Growth		309
13.1.3	Projection III - Low Economic Growth		310
13.2	Population Growth		312
13.3	Regional Growth Patterns .		312
13.4	Employment		315
13.5	Agriculture		317
13.6	Tourism		321
13.7	Projections of the Summer Visitor Expenditures		325
CHAPTER 14	WATER QUANTITY EVALUATIONS		331
14.1	Tributaries		333
14.1.1	Future Water Requirements in Tributaries		333
14.1.2	Alternatives		337
(a)	Tributary Storage Alternatives		337
(i)	Existing Storage and Operating Practices		337
(ii)	Increased Headwater Storage and Present Operating Practices		337

PART IV CHAPTER 14 EVALUATION OF FUTURE CONDITIONS - Continued. . .	
(iii) Modified Operation of Headwater Storages	338
(iv) Modified Operation and Increased Storage	339
(b) Efficiency of Irrigation Systems	339
(c) Metering and Pricing	342
14.1.3 Discussion of Tributary Alternatives	342
(a) Mission Creek	343
(b) Equesis Creek	343
(c) Vernon Creek	343
(d) Trout Creek	343
(e) Powers Creek	343
(f) Peachland Creek	343
(g) Kelowna Creek	344
(h) Penticton Creek	344
14.2 Mainstem Water Quantity Evaluations	344
14.2.1 Alternatives	344
(a) Alternatives 1-Continuation of Present Operation	347
(i) Sub-Alternative 1 (a)	347
Fishery Flows Met Incidentally,	
(ii) Sub-Alternative 1 (b)	350
Fishery Flows Met All times	
(b) Alternative 2-Water Management Options Within	350
Okanagan Basin	
(i) Sub-Alternative 2 (a)	350
(ii) Sub-Alternative 2 (b)	352
(iii) Sub-Alternative 2 (c)	352
(iv) Sub-Alternative 2 (d)	353
(c) Alternative 3-Water Importation	356
14.2.2 Discussion of Alternatives	357
14.2.3 Conclusion	361
14.3 Osoyoos Lake Elevations	363
14.3.1 Statement of Problems	363
14.3.2 Maximum Elevations of Osoyoos Lake	364
14.3.3 Alternatives	364
(a) Structural Sub-Alternatives	366
(i) Flood Control Storage on the Similkameen	366
River	
(ii) Osoyoos Lake Dam and Pumping Station	368
(iii) Replacement of Zosel Dam	368
(iv) Permanent Dykes to Protect Built-up Areas	369
Around Osoyoos Lake	
(v) Emergency Dyking to Protect Affected Built-	369
up Areas Around Osoyoos Lake	
(vi) Channel Improvements Below Zosel Dam	369
(b) Non-Structural Sub-Alternatives	370
(i) Forecasting and Flood Warning Systems	370
(ii) Emergency Preventative Measures and Ed-	
ucation in Flood-fighting Techniques	
(iii) Flood Plain Zoning	371
14.3.4 Minimum Elevations of Osoyoos Lake	371
14.3.5 Discussion of Alternatives	374
CHAPTER 15 WATER QUALITY EVALUATIONS	375
15.1 Review of Existing Conditions	375
15.2 Projections of Waste Loadings	377
15.3 Water Quality for Consumptive Use	384
15.3.1 Rationale for Stream Water Quality Evaluations	384
15.3.2 Alternatives (Stream Water Quality)	387
(a) Removal of Positive Waste Discharges	387
(b) Green Belts	388
(c) Agricultural and Watershed Management Practices	388

PART IV CHAPTER 15 WATER QUALITY EVALUATIONS - Continued . . .	389
15.4 Control of Aquatic Plant and Algal Growth In the Main Valley Lakes	389
15.4.1 Rationale for Lake Water Quality Evaluations	389
(a) Okanagan Lake	390
(i) North Basin	390
(ii) Central Basin	392
(iii) South Basin	392
(b) Skaha Lake	392
(c) Osoyoos Lake	392
(d) Kalamalka Lake	393
(e) Wood Lake	393
(f) Vaseux Lake	393
15.4.2 Alternatives (Lake Water Quality)	393
(a) Waste Export from the Basin	394
(b) Outfall Discharge Locations	395
(c) Green Belts - Main Valley Lakes and Okanagan River	397
(d) Flushing through Increased Flows	398
(e) Waste Treatment	399
(i) Mood Lake	400
(ii) Kalamalka Lake	401
(iii) Okanagan Lake	402
(iv) Skaha Lake	403
(v) Vaseux Lake	404
(vi) Osoyoos Lake	405
(f) Benefits and Costs Associated with Improvements in Water Quality	405
(i) Costs of Waste Treatment	406
(ii) Benefits Associated with Improvements in Water Quality	408
(iii) Annual Benefits and Costs	410
(g) Waste Treatment Management	411
15.4.3 Discussion of Results	411
CHAPTER 16 WATER BASED RECREATION EVALUATIONS	415
16.1 Projections of Demand	415
16.1.1 Beach Recreation	415
16.1.2 Boating Days	417
16.2 Shoreline Capability to Support Recreational Demands	418
16.2.1 Oliver-Osoyoos Region	419
16.2.2 Penticton Region	419
16.2.3 Kelowna Region	422
16.2.4 Vernon Region	422
16.2.5 Summary	422
16.3 Evaluation of Alternatives	423
CHAPTER 17 SPORT FISHERY EVALUATIONS	425
17.1 Review of Existing Conditions	425
17.2 Discussion of Assumptions	426
17.3 Future Angling Demands	427
17.3.1 High Growth Projection	427
17.3.2 Low Growth Projection	427
17.4 Headwater Lakes	429
17.4.1 Harvest Capacities	429
17.4.2 Fishery Management Alternatives (Headwater Lakes)	430
17.5 Tributary Streams	433
17.5.1 Harvest Capacities	433
17.5.2 Management Alternatives (Tributary Streams)	434

PART IV CHAPTER 17 SPORT FISHERY EVALUATIONS	- Continued . . .	
17.6 Main Valley Lakes		434
17.6.1 Harvest Capacities		434
17.6.2 Management Alternatives (Main Valley Lakes)		436
(a) Wood Lake		436
(b) Kalamalka Lake		436
(c) Vaseux Lake		436
(d) Osoyoos Lake		437
17.6.3 Management Alternatives (Okanagan Lake)		437
(a) Tributary Management and Enhancement of Spawning		438
Areas in Selected Streams		
(i) Mission Creek		441
(ii) Equesis Creek		443
(iii) Trepanier Creek		443
(iv) Summary		443
(b) Artificial Reproductive Habitat		444
(c) Enhancement of Shore Spawning Kokanee Habitat		445
(d) Summary of Okanagan Lake Fishery Management		445
17.6.4 Management Alternatives (Skaha Lake)		445
17.7 Okanagan River Fishery Management		448
17.7.1 Sport Fishes		448
17.7.2 Sockeye Salmon		448
17.8 Summary		449
CHAPTER 18 WILDLIFE EVALUATIONS		451
18.2 Evaluation		451
18.2.1 Water Quantity		451
18.2.2 Water Quality		452
18.2.3 General Comment and Summary		453
PART V DEVELOPMENT OF COMPREHENSIVE PLAN		457
CHAPTER 19 FRAMEWORK PLAN AND RECOMMENDATIONS		457
19.1 Introduction		457
19.2 The Planning Process		457
19.3 The Comprehensive Framework Plan		460
19.3.1 Socio-Economic Goals of the Valley Community		463
19.3.2 Water Quantity		464
19.3.3 Water Quality		466
19.3.4 Water Based Recreation and Fisheries		469
19.3.5 Management Considerations		472
19.3.6 Implementation		474
19.3.7 Institutional and Legal Considerations		474
CHAPTER 20 MONITORING THE FRAMEWORK PLAN,		477
20.1 Introduction		477
20.2 Monitoring Objectives		477
ACKNOWLEDGEMENTS		481
REFERENCES		483
APPENDICES		487
APPENDIX A The Canada-British Columbia Okanagan Basin Agreement		489
APPENDIX B Summary Statement O.B.M.B. Hearings March 1972		499
APPENDIX C P.I.P. Task Force Seven Recommendations		507
