

OBWB receives 35 applications for water grant program

The Okanagan Basin Water Board received 35 grant applications for their water conservation and improvement program.

3/7/2011

The Okanagan Basin Water Board received 35 grant applications for their water conservation and improvement program. The total amount of the applications exceeds 700-thousand dollars, but the board only has 300-thousand dollars of funding to disburse. The program has awarded grants to wetland restoration, water conservation awareness and water metering initiatives in the past. Projects receiving funding this year will be announced mid-April.
